1. The Schools Division Office of Nueva Ecija announces the conduct of the Division-Wide Post-Reading Assessment on June 6-15, 2023.
 2. This is in line with its commitment in bridging the learning gaps and learning losses brought by the COVID 19 pandemic particularly on issues concerning learners' literacy, Division Learning Recovery Plan, Division Educational Development Plan, Sulong Edukalidad and DepEd Memorandum 173, series of 2019 otherwise known as the **3Bs Initiative- Hamon: Bawat Bata Bumabasa** which aims to produce productive and responsible citizens equipped with essential competencies and skills for lifelong learning. This advocacy is in concurrence with the division's flagship program on learners' literacy development which is determined to make every learner in all schools in the division a proficient reader, meaning learners with developed reading and comprehension skills.
 3. This activity aims to:
 - a. gather authentic data on the present reading status of Grades 1 to 12 learners which will measure the effectiveness of the intervention and remediation conducted in all schools in the division;
 - b. strengthen the reading proficiency of every learner to make them proficient and independent readers in their grade level; and
 - c. nurture a culture of reading in schools, communities and various levels of governance in DepEd- schools division office and schools division office annexes.

Directions: Mark / for the miscues the learner made.

LEARNER'S NAME (Surname, First Name, Middle Initial)	MISPRONUNCIATION (Incorrect pronunciation of a word)	CORRECTION (A common sign of a skilled reader. A correction of an error is a miscue that the student corrects in order to better make sense of the text in the sentence.)	INSERTION (A child sometimes adds a word that isn't on the material and this is called "insertion".)	OMISSION (In oral reading, the student removes or omits a word thereby changing the meaning of the sentence.)	REPETITION (This happens when a student reads a word or part of the text repeatedly.)	REVERSAL (This often occurs with dyslexic children although a student may reverse the order of the word or the print and sometimes the <u>sample letters</u> . For example, the student may read out "form" instead of "from")	SUBSTITUTION (Instead of what's in the material, a child substitutes a word that he could or couldn't make sense out of, in a sentence or paragraph.)	REMARKS (Example: Mention the number of miscues and other observations, reading level of learner-Independent, Instructional or Frustration. If identified as Frustration, the present grade level in reading of learner.)
